PHOTO DAY WORK-FLOW/FAQs

- 1) All Photos will be taken at the Clubhouse...Please come there before heading to warmups
- 2) An envelope with bar code scan cards will be given to a coach/team mgr for distribution to all players and coaches - these will be scanned at the camera stations to properly ID each subject to their team.
- 3) **Each Player and Coach** needs to be photographed individually in the tent that will be set up in front
 - * These photos will be used to "Build" your team photos versus a traditional team photo
 - * This alleviates the need to have all players and coaches assemble at the exact same time.
- 4) After being photographed in the tent, players can then go inside to be photographed for their Individual photos with a bat &/or glove (Catchers are welcome to wear their full gear)
- 5) Once the player has finished their individuals inside, they are finished with photos and can go warm-up.
- 6) Email & texts will be sent out a few days later (after the team composites have been finished) for online order placement.
